SETUP

Approval Processes

1. Read the help topic

2. View the checklist

3. Create a custom user hierarchical relationship field

4. Create email templates

5. Create an approval process using either the Jump Start or Standard Wizard

6. Add Approval History Related List to all page layouts

7. Activate the process to deploy to your users

Manage Approval Processes For: Event

A listing of both active and inactive approval processes for **Events** is displayed below. To create a new approval process, click Create New Approval Process then select Use Jump Start Wizard to set up your approval process in a few short steps. Or, select Use Standard Wizard to configure all approval options.

Create New Approval Process

Active Approval Processes

Reorder

Action	Process Order	Approval Process Name	Description
Edit Deactivate	1	Event_Cancellation_Process	

Inactive Approval Processes

No approval processes available
